GURMOHIT SINGH

(281) 651-8641 | gurmo06@my.utexas.edu | github.com/gurmo06 | linkedin.com/in/gurmohit-singh-88593b326 | Austin, TX

EDUCATION

- The University of Texas at Austin - GPA: 3.95 — ***Bachelor of Science, Computer Science*** — **Aug 2024 – May 2027 (Expected)**

- Lone Star Community College - **GPA:** 3.98 — ***Associate of Science*** — **Aug 2021 – May 2024**

Relevant Coursework: Artificial Intelligence, Machine Learning, Operating Systems, Computer Architecture, Quantum Computing, Energy Efficient Computing

SKILLS

Programming Languages: C, Java, C#, Python, C++, TypeScript, JavaScript

Technologies: *Frameworks*: Next.js, React, Vite, Tailwind CSS, Spring Boot **|** *Tools/Platforms:* Git, Vercel, Excel, Google Analytics **|** *APIs/Libraries:* Qiskit, PySide6 (Qt), Pandas, Matplotlib, PyTorch, Scikit-learn **|** *Web:* HTML/CSS, REST

Languages: Native: English, Punjabi, Hindi, Urdu – Basic: Spanish

Areas of expertise: Version Control, Communications Skills, Natural Language Processing, Statistics, Predictive Models, Data Science, Data Analytics, Problem-Solving, Cloud Infrastructure, Attention to Detail, Computer Vision, Deep Learning, Data Mining

EXPERIENCE

Tandoorish LLC – Houston, TX

Web Manager/Developer — **Aug 2021 – Present**

- Maintaining production website content and features (menus, promos, events) and shipping online-ordering functionality.
- Optimizing website performance and SEO, improving online visibility, and raising total traffic by over 200% since takeover.
- Leading rebuild planning and deployment for next-gen site (Vite/React + Spring Boot).

Operations Manager — **Nov 2019 – Present**

- Leading daily operations and staff management, ensuring high-quality service, customer satisfaction, and efficient workflow, resulting in 12% average year-over-year revenue growth**.**
- Optimizing inventory and cost control, reducing waste, and maximizing profitability through strategic budgeting and supplier negotiations, lowering operational costs by 30% overall.
- Managing and training multiple employees, fostering a positive work environment, and improving team efficiency.

WPX Houston (Freelance Web Development) – Houston, TX

Web Developer — **Nov 2019 – Aug 2021**

- Designed and developed responsive websites using HTML, CSS, JavaScript/TypeScript, and modern frameworks to enhance user experience and accessibility.
- Collaborated with clients and developers to create visually appealing and functional web designs, ensuring brand consistency and usability across devices.

PROJECTS

QARDS – THE Quantum Card Game | *Python, Qiskit, PySide6 (Qt)* — Source: github.com/gurmo06/QARDS — **Sep – Oct 2025**

- Built a digital card game that models quantum concepts (superposition, entanglement, interference) as core mechanics.
- Implemented interference-based mechanics inspired by Grover's diffusion operator.
- Delivered both a CLI prototype and a GUI application; earned **2nd place** at UT IBM Qiskit Fall Fest Hackathon (2025).

Tandoorish Website Rebuild | *TypeScript, Vite, React, Tailwind CSS, Spring Boot, REST* — **Nov 2025 – Present**

- Rewriting the restaurant website from scratch with a modern frontend + backend architecture to support future features.
- Implementing responsive UI, performance, and SEO improvements; extending menu updates/online ordering functionality.
- Collaborating with stakeholders to iterate on content, UX, and deployment.

System Visualizer | *TypeScript, HTML/CSS* — Source: github.com/gurmo06/System_Visualizer — **Sep 2025 – Present**

- Developing an extensible web-based visualization tool to demonstrate core computer architecture concepts interactively.
- Implementing modules simulating CPU registers, ALU operations, cache behavior, & pipelining concepts for educational use.

Portfolio Website* | *Next.js, TypeScript, Tailwind CSS, Vercel — Source: github.com/gurmo06/Portfolio — **Dec 2025 – Present**

- Designing and deploying a personal portfolio site to showcase projects, skills, and contact information.
- Live: gurmo.vercel.app

ACTIVITIES

Summer 2025 Quantum Optics Program - Applied Research Laboratories, UT Austin – Austin, TX — **Jun 2025 – Aug 2025**

- Gained hands-on experience with quantum computing algorithms and their implementations with optical lab equipment.
- Implemented algorithms such as Quantum Teleportation and Entanglement Swapping and demonstrated a violation of the Bell-CHSH Inequality.

UT Quantum Collective – Austin, TX — **Aug 2025 – Present**

- Engaging in learning labs, reading groups, and hackathons on quantum computing.
- Building and testing circuits (Qiskit/IBM Quantum) while collaborating on undergraduate research initiatives.

Texas ACM – Austin, TX — **Aug 2025 – Present**

- Undertaking workshops, hack nights, and interview prep with peers to sharpen algorithms, systems, and collaboration skills.
